Proposed Information Collection; Comment Request; Individual Fishing Quotas for Pacific Halibut and Sablefish in the Alaska Fisheries

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before [Insert date 60 days after date of publication in the FEDERAL REGISTER].

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW,

Washington, DC 20230 (or via the Internet at pracomments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Stephanie Warpinski, (907) 586-7228.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision and extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS) established the Individual Fishing Quota (IFQ) Program to improve the long-term productivity of the sablefish and Pacific halibut fisheries by further promoting the conservation and management objectives of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, (with respect to sablefish) and the Northern Pacific Halibut Act of 1982 (with respect to Pacific halibut) while retaining the character and distribution of the fishing fleets as much as possible. The IFQ Program includes several provisions, such as ownership caps and vessel use caps that protect small harvesters and processors, part-time participants, and entry-level participants that otherwise could be adversely affected by excessive consolidation.

The IFQ Program also includes other restrictions to prevent the halibut and sablefish fisheries from domination by large boats or by any particular vessel class. NMFS designed the requirements to maintain a predominantly owner-operated fishery, which was a key

characteristic of the halibut and sablefish fisheries prior to the implementation of the IFQ Program. The IFQ Program provides each fisherman an IFQ that can be used any time during the open season to allow each fisherman to set his/her own pace and fishing effort.

Under the IFQ Program, quota share (QS) represents a harvesting privilege for a person. Annually, NMFS issues IFQ to QS holders to harvest specified poundage. The specific amount of IFQ held by a person is determined by the number of QS units held, the total number of QS units issued in a specific regulatory area, and the total pounds of sablefish or halibut allocated for the IFQ fisheries in a particular year. Fishermen may harvest the IFQ over the entire fishing season, which extends approximately from March through November 15.

The IFQ Manual Landing Report form will be removed from this information collection. This form is approved under OMB Control Number 0648-0515 (Alaska Interagency Electronic Reporting System (IERS)) and will remain in that collection.

II. Method of Collection

“Fillable” forms and applications are available from the NMFS Alaska Region website at <https://alaskafisheries.noaa.gov/fisheries-applications>, except for those forms completed by NOAA Office of Law Enforcement officers via the telephone. These forms and applications may be completed on the computer by the participant, downloaded, printed, and faxed to NMFS.
